The Ultimate in Safety and Securement

American Seating introduces *Secura*®, a portfolio of mobility aid products for the city service and motorcoach markets. This full line is compatible with all layouts and allows for optimal flexibility. All products have been designed with your passengers' well-being in mind, giving you the confidence that your riders will Be Safe with *Secura*.

Features

Mobility Aid Restraints

Automatic Locking Retractors (ALRs) or Manual Locking Retractors (MLRs) are available to secure the mobility aid device.

Occupant Restraints

Lap and shoulder belt combinations for securing the passenger are available to fit any application.

Floor Anchorages

"L" track, floor pockets, or *Swiv'lock*™ fittings are available for anchoring the mobility aid restraints to the floor of the vehicle.

Accessories

Additional and optional accessories include: webbing loop, belt cutter, and a storage bag.

Advantages

Made In The USA

All products designed, engineered, manufactured, and tested in the USA.

Durability

All *Secura* products are made of high quality, commercial-grade components to ensure that they meet or exceed industry standards.

Quality

Die-cast retractors feature belt openings with beveled edges and an open front face. This reduces dirt accumulation as well as wear and tear on the webbing, resulting in a longer and safer product life.

Warranty

5 year industry leading warranty.

Testing

Secura belts meet or exceed all applicable US and Canadian vehicle safety standards: FMVSS/CMVSS 302, ADA FR 36, and CFR Part 1192.
